

WXT

White Paper

Where New Wealth Is Made

Since 2018, WEEX has been focused on improving user satisfaction, winning user trust with agile coin listing and extreme liquidity, and ensuring that traders can seize market opportunities quickly. Adhering to the philosophy of "user first," the platform has won the trust of more than 5 million global traders from more than 50 countries with its dedication and efficiency, and has established partnerships with over 10,000 elite traders and more than 5,000 global influencers.

Today, the WEEX trading platform provides a comprehensive range of services that include spot trading, futures trading, copy trading, and listings through WE-Launch. With over \$5 billion in daily trading volume, WEEX has long maintained a ranking in the top 10 crypto derivatives exchanges, and has maintained a good trust score through audited proof of reserves.

WEEX recognizes that our users and partners are the cornerstones of our prosperity. This is why we are giving back to our users and partners with the introduction of the WEEX Token (WXT).

The platform coin is one of the most important parts of an exchange ecosystem. WEEX Token (WXT) will be used to reward users, partners, social media engagement, and trading activities, bringing significant returns to holders and awarding perks within the ecosystem. For example, BNB has achieved significant growth since its launch thanks to its robust ecosystem, with its price rising from \$0.15 in 2017 to \$793 in 2024, delivering a return of more than 5,000 times to early adopters.

In addition to price appreciation, WXT holders also enjoy exclusive eco-perks such as transaction fee discounts, airdrops of new project tokens, and governance participation. WXT's tokenomics is designed to reward holders and allow them to gain long-term benefits as the platform grows. In the future, we will continue to optimize token utilities, launch more high-value airdrops, improve the governance participation mechanism, and further enhance the scarcity of WXT and the profit potential for holders through strategies such as regular repurchase and burning, so as to create a prosperous exchange ecosystem.

What is WXT?

WEEX Token (WXT) is a platform token issued by WEEX that aims to provide exclusive benefits and valuable returns to loyal users and partners of WEEX. By holding and using WXT, users grab a share of long-term returns brought by the rapid growth of the WEEX platform. WXT holders enjoy trading fee discounts, prioritized access to WEEX events, and other value-added services, thereby gaining an upgraded trading experience and long-term profit opportunities.

WXT Holders' Perks

WE-Launch

Commit WXT in WE-Launch events to receive free token airdrops from popular projects.

* According to the 2024 WEEX WE-Launch listing and airdrop record, the APY of holding WXT is as high as 140%.

VIP Level

Hold WXT to increase WEEX VIP levels and enjoy tiered rate discounts.

* The amount of WXT held and the corresponding fee discounts are updated based on our marketing strategies and promotions from time to time. WEEX reserves the right of final interpretation.

Elite trader perk upgrade

Elite traders holding WXT enjoy a higher profit share ratio.

Upcoming WXT Holder Perks

In order to promote WXT on WEEX, we will empower WXT holders further with a series of perks to encourage users to engage more deeply in the future development of the platform and build a prosperous ecosystem together.

WE-Launch

Prioritized access: WXT holders enjoy prioritized access when participating in WE-Launch events and can obtain new project crypto at the most favorable price.

Greater multiplier: The more WXT you hold, the higher the reward multiplier you get.

On-chain utility expansion

On-chain payment: Integrate WXT into on-chain scenarios, such as decentralized finance (DeFi) and NFT trading markets, to expand the utility of WXT.

Ecosystem cooperation: Promote the application of WXT in cross-chain bridges, decentralized exchanges (DEXs), and wallets to achieve cross-ecosystem value circulation.

Platform governance and voting rights

Voting rights: Users holding WXT can participate in votes for major platform matters, including new coin listings, feature upgrades, event design, etc.

Proposals: Long-term holders or shark holders can submit governance proposals to jointly promote the future development plan of the platform.

More benefits on WEEX

Fee discounts: Use WXT to pay transaction fees to enjoy the best discounts.

Enhanced commission: Users holding WXT can enjoy higher referral and affiliate commission percentages.

Event bonuses: WXT holders can get extra rewards or boost their chances of winning when participating in platform events (such as trading competitions and the Daily Spin).

Airdrop benefits: Regularly airdrops to WXT holders as ecosystem dividends.

WXT Repurchase & Burn Plan

The initial total supply of WXT is 10 billion. Starting in 2025, WEEX plans to launch a WXT repurchase and burn mechanism to make WXT a deflationary token.

The plan is as follows:

First burn

In order to better build the WXT ecosystem with the community, the WEEX team decided to repurchase and burn 4 billion WXT, which accounts for 40% of the total WXT supply. The burn will be completed in the near future, and the on-chain record will be published. After the burn, the total supply of WXT will be reduced to 6 billion.

WXT burn in future quarters

Frequency: Once a quarter, usually completed at the beginning of each quarter

Rule: WEEX will repurchase WXT with 20% of the exchange's quarterly profits (from spot and futures transaction fees and listing fees) and burn these tokens.

Method and transparency: WEEX will burn the repurchased WXT by sending them to the eater address, and make the specific amount of burn and on-chain records public upon completion.

After the First Burn, the Tokonomics of WXT Token Would be as Follows:

Item	Data
Coin name	WEEX Token
Ticker	WXT
Blockchain	Ethereum (ERC20)
Offering price	\$0.01
Contract address	0x1B66474c8ECA3827f16202907F41F63785579716
Issuance date	2023.08.01
Initial circulation	3,900,000,000
Initial supply	10,000,000,000
Current total supply	6,000,000,000

25% Investor Protection Fund

10% Referral Program

Brand Promotion **15%**

20% WXT Ecosystem

Partner Ecosystem Fund **15%**

* The investor protection fund portion has been released, and the rest will be released linearly over 10 years.

OUTLOOK

WEEX is committed to driving the evolution of the digital assets industry by providing a secure, private, and user-friendly platform. The WEEX ecosystem aims to build a self-sustaining, blockchain-based financial infrastructure with diverse applications, making blockchain technology accessible to everyone. By integrating crypto with traditional finance, WEEX is dedicated to lowering the barriers to entry and delivering innovative products, paving the way for a future where digital assets are central to everyday life.

This white paper is for informational purposes only and does not constitute an opinion regarding the trading of WXT or investing in the platform. The information and analysis contained herein should not be construed as investment advice. You should understand the risks associated with the WXT. By choosing to invest, you acknowledge that you understand, are fully aware of, and accept the risks involved in this project.

Globally, the regulation of blockchain projects and digital token financing methods remains unclear in some countries. This regulatory uncertainty could result in losses for participants due to changes in laws or policies. You must assume full responsibility for these risks after making your decision and be prepared to accept the corresponding outcomes and consequences. These risks include, but are not limited to, policy risks, regulatory risks, compliance risks, economic cycle risks, network hacking risks, management risks, digital currency industry risks, price volatility risks, and other unforeseen risks.

WXT is a utility token for the platform and does not constitute a security, stock, bond, or other financial derivative. Any user holding WXT must comply with local laws and regulations and assume these risks independently.
